

JAMF SAFE INTERNET

Safe, private connections everywhere students learn

Powered by Jamf's content filtering and network threat protection engine, Jamf Safe Internet is designed to help schools protect minors from harmful content.

Students spend nearly twice as much time online than ever before, presenting a growing need for digital safety to eliminate cyberattacks and prevent students from accessing unsafe content. Using Jamf security tools, Jamf Safe Internet is a purpose-built, education, content filtering solution that ensures students can navigate the internet without reserve and integrates with our flagship education mobile device management solution — Jamf School.

Content Filtering Database

Comprehensive content filtering optimized for education and integrated with MDM for simple, powerful student and user protection. Jamf Safe Internet is designed to help schools protect minors from harmful content on the internet and enforce acceptable-use policies without sacrificing the learning experience Apple devices provide.

Using lightweight, performant domain name system (DNS) technology Jamf Safe Internet allows admins to create and customize the content filter results that fit their school needs, without invading privacy.

Implement YouTube Restricted Mode

Implement YouTube's Restricted Mode services to hide mature content from YouTube search results, comments and embedded YouTube videos.

Easy-to-build Reporting

Security professionals know that threat management doesn't stop with the protective tooling, you want to report on and understand the effects of your work. Never miss a beat with device usage statistics available in [Jamf School](#) the moment a device is deployed.

Enforce Google SafeSearch

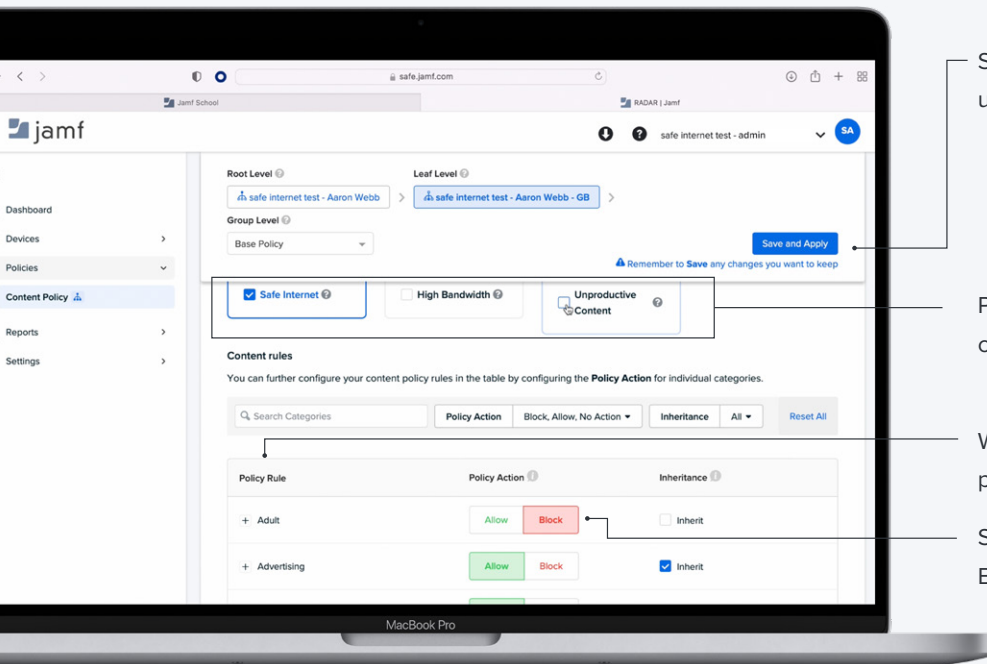

Jamf Safe Internet enforces Google's SafeSearch to help hide explicit content from Google search results for safe learning environment.

Education optimized, Jamf School integrated

A brand new console, with workflows specifically for the education user, designed from the ground up, with seamless Jamf School integration to make deployment and on-going syncing simple and intuitive from the platform you're comfortable with. Jamf Safe Internet also integrates with Jamf Pro right out of the box.

Content controls customized

Scope the content filtering policies fit for your needs. Or, simply choose a Safe Internet preset and get started!

Simple, Save and Apply updates to your policies

Pre-defined rules to get your content filtering policy started

Wide set of block categories to prevent content

Simple click-to-toggle Allow/Block functionality

See how [Jamf Safe Internet](#) works with your MDM platform, to ensure security and digital safety remain core to the educational experience.
